

# Scottish Renewables

July 2020

# Methodology

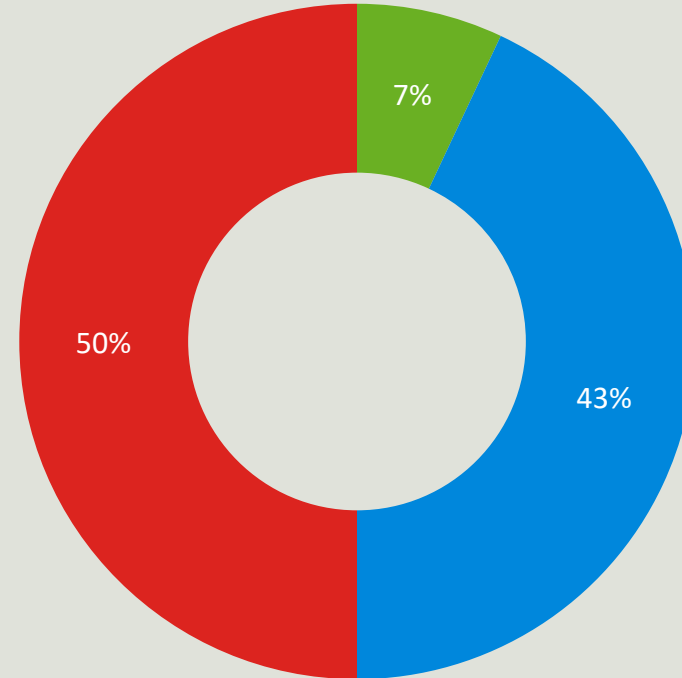

- Survation polled 100 Oil and Gas workers living in Scotland.
- Fieldwork was conducted via telephone on 24<sup>th</sup>-28<sup>th</sup> July 2020.
- This survey was unweighted.
- Full data tables can be found here: <https://cdn.survation.com/wp-content/uploads/2020/07/29115523/Scottish-Renewables-tables-July-2020.xlsx>

To what extent have you considered how your role could be impacted by actions being taken to tackle climate change? For instance, a significant decline in the demand for fossil fuel products.

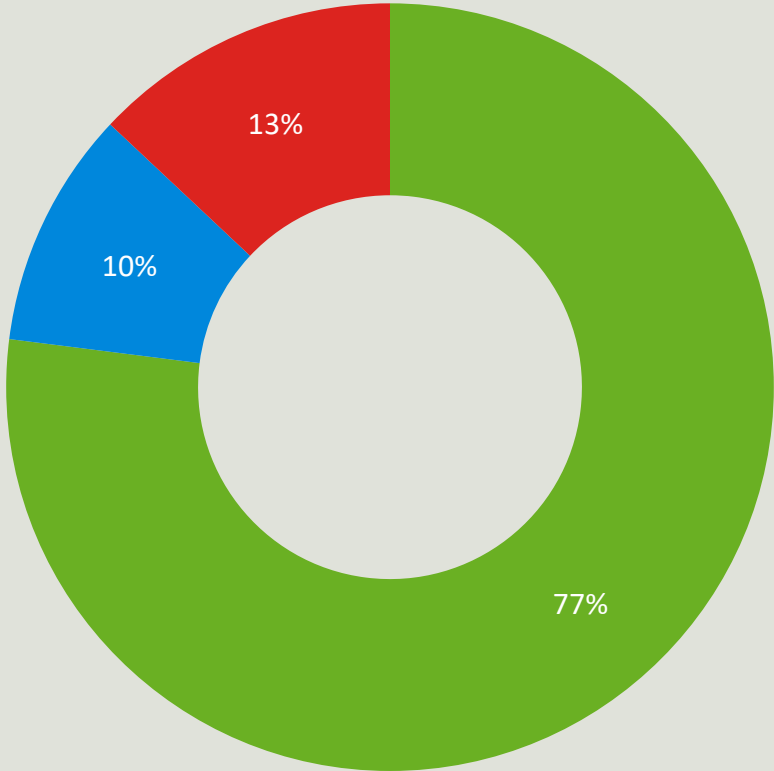

■ Considered Net (very much/somewhat/not that much considered) ■ Not at all considered ■ Don't know

## Have you ever considered working in the renewable energy industry?

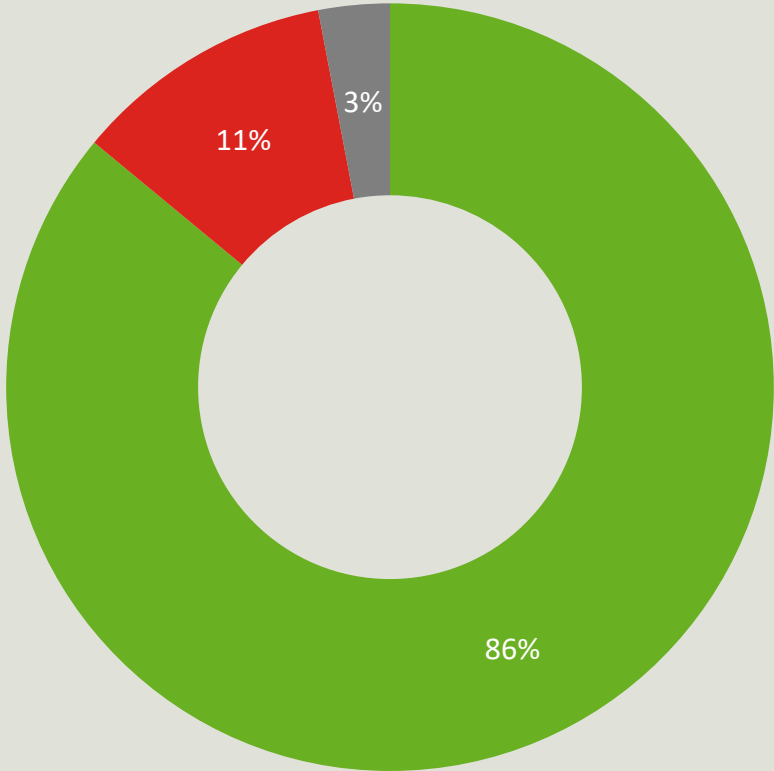

- Yes I am already doing some work in the renewable energy industry
- Yes I currently don't work in the renewable energy industry but have considered working in the renewable energy industry in future
- No

# To what extent would you think positively or negatively about the opportunity to retrain for a career in the renewable energy industry?

■ Positive Net (very/quite positive)    ■ Neither positive nor negative    ■ Negative Net (very/quite negative)

# How likely would you be to consider retraining to join the renewable energy industry if that training were funded by the Scottish Government?

■ Likely Net (very/quite likely)   ■ Not likely Net (not that/not at all likely)   ■ Not sure
